

Riverside Natural Foods Ltd. was co-founded by the Fotovat siblings in 2013 as a **Triple Bottom Line** company from the very beginning, focused on: **People, Planet, & Profit**. The plan from Day 1 was to contribute to the world, not just take from it. The more we build, conserve, innovate, invest, grow, and succeed, the greater our ability to achieve our mission to:

“Inspire a healthier more compassionate world”.

Today, Riverside has grown to employ **more than 500 people** locally here in Toronto, where we now operate **over 500,000 sq ft** of manufacturing and office space. Our flagship brand, **MADE GOOD**, was created to provide a healthy, allergen-free snack option for kids and adults alike and is now an internationally recognized leader in the natural category. As Riverside continues to grow and innovate, we continue to innovate successful brands such as **GOOD TO GO** and **COOKIE PAL**.

Sustainability has always been part of Riverside’s DNA, embedded in the philosophy of a Triple Bottom Line company. We’ve made sure to align ourselves with internationally recognized standards and certifications that reflect this approach, such as being a **B-Corp**, a **Future Fit Pioneer**, committing to the **Science Based Targets Initiative**, and achieving **GBCI’s True Silver Zero-Waste** certification to name a few. 2021 also saw the development of **Riverside’s Sustainability Vision 2025**, which will act as our framework to drive actionable, measurable, and positive change over the next 4 years.
